INTO THE BLACK

"This is a lovely place to wake up," says Eva-Marie Prineas, the architect who designed this Sydney bedroom. "The house is one of a row of heritage-listed terraces. They're 7m wide and this is the only room in the house where that full width is experienced." The star feature of the room is undoubtedly the handsome black bedhead. "It conceals a row of wardrobes at the rear, plus also allows the airconditioning to be concealed within it, leaving the ceiling free of vents," says Prineas.
